DISEGNA

European Quality Composite

Disegna concept. Disegna is a new concept in the design of outdoor decking. A blend of timeless beauty and imagination. An invitation to create spaces with their own identity and elegant, places to be lived and enjoyed. It is a way of seeing that quality, beauty and simplicity are linked to pleasure and comfort.

Collections. Disegna present unlimited possibilities of combinations thanks to a wide range of colours and variety of finishes.

NATURE. It is a tribute to the secrets of the land. Its colours blend into natural surroundings, evoking nature. These serene tones create a warm welcoming atmosphere.

ANTIQUE. The perfect fusion that combines traditional and the modern. This trend evokes memories of the past.

DESIGN. An invitation to live sensations and let creativity run free. Its colours are a source of energy and inspiration for people with personality.

PRIVÉE. Innate elegance, sensitivity and mystery. The perfect pair to creating intimate, timeless and minimalist spaces with their own unique touch.

CAPRIZZO. A challenge to convention. Innovative colours that are in line with fashion and invite to get lost in new sensations.

Our wellbeing guarantee. Material that remain intact with the passage of time. This arises from a union of aesthetic properties and optimum technical characteristic than guarantee the highest quality and effectiveness, allowing the product to provide greater comfort and safety.

Colours stable over time

Anti-fungal

High resistance to climate changes

Low coefficient of expansion

Low maintenance

Durability

Homogeneous low-porosity formula

Highest quality polymers

Easy to install

Swinging fixation

Light

Resistant

Ecological

Components and accessories. The Disegna range comes in two different finishes: grooved and smooth. Each board is reversible, making it possible to choose the finish when installing the decking. All these finishes meet the european standards regarding non-slip walking surfaces.

The installation method, incorporating the use of battens and DINAMIX stainless steel fastening clips, ensures the long-term stability and correct fastening of the decking to the ground. The CURVE skirting system is flexible when cold; this allows border pieces to be easily laid, even in curved designs.

WPC Profile in
grooved and
smooth finishes

139 x 24 x 2000 mm

Grooved and
smooth edge
finish profile

95 x 24 x 2000 mm
