

euromono⁺

SILANE-MODIFIED MONO-COMPONENT ADHESIVE

Mono-component adhesive based on silane polymers for elastic bonding of wooden floors. It is **water and solvent free**, it does not contain epoxy resins nor isocyanate. It is suitable for engineered wood floorings of any species and dimensions. It is also suitable for solid wood up to 140 mm width on any type of absorbent and non absorbent sub-floors.

Thanks to its elasticity, it is particularly recommended on under-floor heating and cooling systems; it does not swell and has got goodsound proofing properties.

Easy to use, high yield, no waste, easy to clean from hands and prefinished parquet, **Euromono⁺** has no symbol of risk and a very low VOC content.
